Special Telegram to the News.

WELDON, N. C., Oct. 30th '78.

Long excursion trains rolled in to-day, each with crowds of sightseers. The Petersburg Greys, Capt. Gary, and the Edgecombe Guards, Capt. T. L. Bridgers, arrived in special trains early in the morning, and at once went to the grounds, the Virginians under the special escort of the Guards. The team of the Goldsboro Rifles also arrived. The Norfolk City Guard, Capt. E. V. White, and the cadets of the Norfolk Institute, under Prof. Webster, came in in the afternoon and were received by that splendid new company the Roanoke Light Infantry, and at once escorted to the grounds, where the feature of the day, the competitive drill for a handsome stand of colors, was held. The flag was won by the Norfolk City Guard, one of Virginia's best military organizations.

The prize gold medal for the best score at the rifle shooting, was next contested for and won by the team of that splendid company, the Goldsboro Rifles, Lt. Bain doing some fine shooting.

The drill and appearance of the Roanoke Light Infantry was highly complimented by competent judges, who pronounced the company the best drilled for its age they ever saw.

The day was made perfectly enjoyable to all. The gate receipts were larger than on any day since the fair has been held here. The weather was glorious and everybody in the best spirits. There were no disorders, but perfect quiet prevailed.

The races were exciting and attracted great interest. The first was a running race, mile heat. Starters, W. P. Burch's Gov. Hampton, H. J. Pope's Red Slipper and Mr. Whitaker's Guy Mannering. It was won by Hampton in 2:06, and 2:02

A Negro Murders a White Man.

Correspondence of the News.

RUTHERFORDTON, N. C., Oct. 28.

Last night a difficulty occurred some ten miles South-east of this place, between one Lafayette Hamrick and a negro whose name is given as Tench Doggett, in which the former received a cut in the back, from which he died during the night. The particulars of the difficulty are not sufficiently definite to be given. There were present two other negroes and perhaps one or two whites. The negro that did the cutting attempted to escape to South Carolina, but was captured before he reached the line, and committed to jail here this afternoon to await his trial, which will not be long in coming, as our court convenes two weeks from to-day.

MOUNTAINEER.

Red Devils Preparing.

Philadelphia Times.

For a number of days past Indians have been gathering in Red Water Valley, Dakota, which seems to be a general rendezvous for the tribes along the Missouri. These redskins are thoroughly equipped and have an abundance of provisions, ponies, blankets and amunition, and seem determined to inaugurate a bloody campaign against the whites along the river. The principal tribe among these Indians appears to be the Cheyenne, and they have been joined by malcontents from Spotted Tail's band, which has left its agency and gone the agent knows not whither. These Indians and scattered bands of Sioux are moving over the country in great force and the settlers are becoming terribly alarmed. Up at Pierre the people are arming and preparing for any emergency that may arise. The men about there are not easily alarmed but they are beginning to believe that the Indians are at last in earnest and are getting ready for them.

The Massachusetts Campaign.

Atlanta Constitution.

The voting strength of Massachusetts in round numbers is 110,000 democratic and 150,000 republican. The predictions as to the result of next Tuesday's election are as diverse as they are numerous. An intelligent correspondent of the Philadelphia Times thinks Butler will get 30,000 republican votes and 88,000 democratic. This would give Talbot 2,000 majority. The correspondent adds. "The Abbott democrats will increase this majority if they think it necessary to vote for Talbot to defeat Butler. On the other hand, if the coporations are not able to control their employees, as it is now supposed they will be, Butler will be elected. The naturalization mills are manufacturing votes in Massachusetts at a rate never before witnessed, and a good many sons of Erin are being coached in reading and writing so as to be qualified to vote for Butler."

Public Manners.

Harper's Magazine.

Nothing more surely marks a gentleman than his public manners. It is, for instance, impossible not to feel that a man who arrives at a hotel late at night and goes noisily, talking and laughing, along the corridor to his room, flinging his boots down heavily and slamming the door, though an upright and excellent person, yet lacks the finer qualities of the gentleman. The essence of courtesy is moral. It is a sympathetic regard for the feelings of others which spares them unnecessary annoyance. When it is instinctive, it is called tact. But it is, at bottom, humanity. So when a public man vituperates another, however "smart" the abuse may be, there is an instant perception of the want of true gentlemanly feeling.

Editorial Aims out West.

San Francisco News Letter.

A young man sends us a long essay on "The True Aim of Journalism." We haven't read the article, but suppose the author, like almost every one else, prefers the Smith & Wesson, navy size, No. 44 calibre, to any other pistol. In this locality, especially, is the aim of the journalist of the greatest importance, and the man whose hand shakes and who can't hit an outraged community's third vest button three times out of five has no business trying to run a paper in California.

N. Y. Star.

A young bachelor who had been appointed sheriff, was called upon to serve an attachment against a beautiful young widow. He accordingly called upon her and said: "Madam, I have an attachment for you." The widow blushed, and said his attachment was reciprocated. "You don't understand me; you must proceed to court." "I know it's leap year, sir, but I prefer you to do the courting." "Mrs. P. this is no time for trifling; the justice is waiting." The justice! Why, I prefer a parson."

A SAD FATE.

Death of one of Raleigh's Citizens by the Bursting of a Lamp.

Special Correspondence of the News.

MARION, Oct. 29.

Last evening the alarm of fire was given. It was found to proceed from a room at the Fleming Hotel, and when the door was opened the fierce fire defied its foes to enter, but some persons with great self-possession succeeded directly in arresting the flames, when to their horror they saw that E. F. Page had fallen a victim.

The spectacle was heart-rending. His body was prostrate on the bed, which was almost consumed. The lamp near him was bursted to pieces.

The deceased was a lawyer of your city, who had been spending some weeks here for recreation and recuperation.

The sad occurrence has thrown a gloom on our town. M.

A Swindler and Suicide.

New York Tribune.

The New York Custom House officials have discovered frauds of an extensive character involving R. A. Pedrick, a clerk employed by Benkard & Hutton, importers of dry goods in Broome street. Pedrick is charged with embezzling $108,000 of the firm's money, entrusted to him to pay customs duties, and with forging permits for passing goods through the Custom House. He has been missing since the discovery of the crime. The Government has brought proceedings against Benkhard & Hutton, and Levi P. Morton, their security, to recover $120,000, the full penalty on their bond as importers. The clerk who has stolen more than $100,000 intrusted to him for the payment of duties on bonded goods, and who had covered his tracks with great ingenuity, calling even forgery to his aid, had earned the confidence of his employers by fifteen years faithful service, beginning as an errand boy. His honesty was never suspected; he was happy in his home; his habits were exemplary. His deliberate act of self-destruction is one of those inexplicable events which now and then shock the public, when men, whose lives are opening with promise, throw away all the chances of existence and leap into ruin.

Too Horrible.

Augusta Sentinel.

A colored woman in Oglethorpe county, Georgia, who has always encountered more or less cruelty from her husband, accused him last week of smothering their baby between the mattresses of the bed. Such a shock did her feelings undergo while brooding over her calamity that, on the place of Mr. W. A. Hardy, of Woodstock, she committed suicide by jumping in the well. There she remained a week, a number of persons using water from the well all the time, until the suspicion of the family was aroused by a nauseous taste in the water, even the horses having refused to drink it for a day or so before its use was discarded. At last the water drawn up was found to be streaked with blood, and an examination brought forth the putrid blood of the woman. Suspicions that her husband had thus privately made way with her have also been aroused.

Jocularities.

In a discussion on cremation at a London club, a member is credited with the argument: "We earn our living, why should we not urn our dead?"

"It seems to me," said a customer to his barber, 'that in these hard times you ought to lower your prices for shaving." "Can't do it," replied the barber. "Now-a-days everybody wears such a long face that we have a great deal more surface to shave over."

A clergyman who was recently called up to hold services in the State prison at Sing Sing prefaced his remarks to the prisoners by saying that he was "glad to see so large a number present."

Buffalo Express: They are talking of abolishing funerals in Ohio. Not that people will cease to die, but the funeral is expensive, and the medical colleges get the corpses anyhow.

The Chinese Question.

The British Columbia courts have decided that the recent law to expel the Chinese from the province by taxing them beyond their ability to pay is unconstitutional, because it interferes with trade and commerce, which are under the control of the Dominion government. Without the sanction of the Dominion Parliament, therefore, the Chinese will not suffer expulsion there. What the policy of the new Tory government will be on the Chinese question has not been foreshadowed.

The Country's Need.

Philadelpsia Times.

Prime and principal among the duties of the time, if we take inspiration from the belief that an unrivaled career awaits us, must be the growth of purer and more unselfish traits in our public life. Something more exact in its honestly and less sordid in its nature we need, and need badly. The national heart is good; its purposes are honorable and just; it remains to complement these with administrative statesmanship that shall be morally grand as well as intellectually skillful.

As True as Gospel.

New York World.

The candidates for the most important positions in the country are, with a few honorable exceptions, not the men whom the people want to represent them or consider fit to represent them, but men who have nominated themselves or whose friends have nominated them or whose particular faction has nominated them—men chosen out of the office-holding class by the professional politicians.

Raleigh and the State Fair.

Hillsboro Recorder.

There is always an amount of dissatisfaction from some quarter attending every annual exhibition of the State Fair which can only be pacified by wreaking vengeance upon Raleigh, the most effectual gratification being the removal of the exhibition to some more hospitable or appreciative locality. This has been the case since the very first opening of the Fair, and will probably be so to the end. Nothing human has ever been made perfect, and grumblers can always find food for discontent; yet we venture the prediction that the State Fairs will continue to be held in their present locality so long as the State Agricultural Society shall own an existence, while certain unpleasant realities do exist, they are so far counterbalanced by acknowledged advantages. Once destroy the permanency of its location, the tenure of its life may be readily determined. There can be no safe inference drawn from the generous proffers of towns, rivals to Raleigh, for the honor and the profits of the annual exhibition. For once, any one of these towns may make a gigantic effort. What guarantee is there that such will not be exhausted by the effort, and in its turn become the occasion of the same denunciation with which Raleigh is now overwhelmed?

The error seems to be in holding the city of Raleigh responsible for all the discomforts which attend certain visiting organizations. A policy as suicidal as the abandonment of these grounds and buildings ought not to be tolerated. If there is any wrong in the management, let it be fearlessly remedied, without respect to persons. The location of the State Fair at Raleigh is not so much the affair of Raleigh as of the State. We know the shortcomings of the people of Raleigh have been greatly exaggerated, and their really substantial services as greatly underrated. Let the public mind settle down to the fact that the Fair at Raleigh is a permanency, and go to work to amend errors, rather than seek to escape them by a removal which involves inevitable destruction to the whole institution.

COLORED NORMAL SCHOOL

Lecture by Prof. Ladd--Good Condition of the School--Educational Notes.

Correspondence of the News.

FAYETTEVILLE, Oct. 29.

Prof. John J. Ladd has been in our town for the past week, and during his stay has delivered a course of his lectures on teaching, to the State Colored Normal School. Prof. Ladd is well known in our State as the Superintendent of the last Normal School at Chapel Hill. His lectures are on the practical duties of school life, and he is one of the very few lecturers in the country who make this part of teaching their specialty. His long and varied experience in the school-room has given him a practical knowledge of just what is needed in discipline and instruction, and he knows what methods will succeed in obtaining them. He understands boy-and-girl nature thoroughly, and his stories of old-field schools, of unreasonable parents and unruly children; and of the methods of instruction and discipline he has adopted, are highly instructing. That a teacher should be a Christian in the mainspring of his theory, and he thinks that "if teachers would use their knees more and flog less, they might govern their schools better." Prof. Ladd is greatly interested in the educational movement which has recently begun in the State; he considers teaching a profession, and that a community should no more think of employing an unskillful teacher than of supporting an unskillful surgeon, and in consequence that Normal School work is of the highest importance.

Prof. Ladd was delighted at the condition of the Colored Normal School, and could not sufficiently admire its neatness and order, and the excellent discipline and thorough instruction which are its distinguishing characteristics.

At the close of his last lecture on Friday night, the school tendered him a unanimous vote of thanks for his admirable course of lectures during the week.

Prof. Ladd has been hospitably entertained by the white citizens of the place, and has visited the white Graded School recently organized, and expresses himself highly pleased with it. We hope that he will either remain among us, or visit us at any favorable opportunity, for the presence of so distinguished an educator can not fail to advance the cause of education among us.

Why Hayes is Happy.

Washington Post.

Mr Hayes' cheerfulness while his party is falling to pieces is not, as some suppose, the result of heartless indifference. It springs from a belief that, by the middle of November, the old party will be so far demolished that he can begin his great work of reconstruction. His only real grief arises from the fact that he can't find enough old Whig timber for main pillars to the new edifice, as he had fondly hoped. Thus far, his utmost researches have unearthed but two suitable pieces, Col. Thompson and Kenneth Rayner. These show slight indications of petrification, but Mr. Hayes thinks they will do.

Splitting Logs with Powder.

Where circular saws are in use, not of sufficient diameter to divide large trunks, it is asserted that trees partly sawn through may be neatly split with powder, or split even without any sawing. If a hole be bored in the wood of one inch diameter, and in depth a little more than half the thickness of the trunk, about one-third the length of the log from the butt-end, and as near as possible to the center, powder and fuse put in and the hole filled up with sand, a single blast is sufficient to split a log of considerable length, which it does generally, almost as clean as the saw. Beech and ash have been successfully experimented upon, but with oak and some other timber it is not so successful.

Cause of Consumption.

A distinguished German anatomist says that pulmonary consumption and all pulmonary diseases, are almost exclusively produced by the breathing of foul air; that they have nothing to do with intemperance or erotic excesses, and much less with cold weather or taking cold; consequently, if persons, after having taken cold, keep themselves locked up in a close atmosphere until their cold is over, they run the risk of contracting consumption, not from the cold they took, but by the foul air they daily breathed. Hence the necessity of constant ventilation of the rooms, especially bedrooms, during the night, by keeping at least one window open, even if one has to cough.

The Fishery Award.

Phil delphia Times.

The fifteen million dollars awarded Great Britain as fishery damages by the Halifax Commission lies in London to the order of the American Department of State, and the time for paying it over will expire on the 26th of next month. Meanwhile the British Foreign Secretary, Lord Salisbury, is supposed to be considering the equities suggested by our protest against the monstrous excess of the award, but there is no encouragement for the expectation that he will be able to see the injustice done the United States, since he has taken position, with regard to the fishery business, in behalf of what is quite as glaringly unfair.

Bright Rascals.

Two expert Belgian smugglers recently ran the blockade at Messincourt with 1,200 pounds of tobacco. It was concealed in a carriage with armorial bearings, two fine horses and a laced coachman, who cried out, "This is the count of Flanders's carriage!" with such dignity that the officers shrank back after taking a respectful perfunctory glance towards the occupants, two ladies in black, that afterwards proved to be dummies with waxen heads.

Gov. Vance.

Tidewater Times, (Va.)

One of the grandest men of the South is Governor Zebulon Baird Vance, of North Carolina. Carolina and her good are engraved on the frontlets of his heart, and how large, how noble, and how warm, with all kindliness and generous feeling, that great true heart is, can only be estimated by those who see him in the discharge of his never neglected life duties. His popularity in Carolina is simply stupendous, and his influence upon all classes and conditions of men is immense. One reason of this is his keen sympathy with his fellowman, and his ability to enter into the cares and weariness of their lives of toil, and to suffer and to enjoy in perfect unison with themselves. Another is his wonderful quickness of mind and versatility of genius, as well as charming wit and delightful sunniness of manner, and a brilliant *bonhomie*.

To appreciate the way in which he is esteemed in Carolina, one must see him as we have done, surrounded by the citizens of some isolated village, or gathering of the country people upon the Carolina hills. He sways the crowd by his breath, and plays upon its many minds and passions as one would touch a complicated musical instrument, drawing from its numerous and discordant notes one full and perfect harmony.

During the war his conduct was such as to gain for him the praise and admiration of the entire Confederacy, and to raise his popularity in Carolina to a fever heat.

During his governorship in the war, on one occasion, he sent out by the famous blockade vessel, named facetiously after Mrs. Vance, the "Ad. Vance," an order for a large lot of cotton cards which he himself had distributed over the entire State. This act of thoughtful consideration was the means of bringing comfort and happiness to a thousand impoverished homes, and the name of Zeb Vance went up to heaven embalmed by the blessings of those he had so much benefitted. We were speaking of this to him one day. "Yes," he said with the peculiar twinkle of his brilliant eyes that is sure to precede one of his witticisms, "That was the best card I ever played!"

Gifted, generous, the soul of truth and honor, honest as the day, and as high above all meanness and littleness as his native mountains are above the common earth, Zebulon Vance may well stand as the representative and embodiment of the glorious State of which he is the grandest and most favored son.

In the olden time it was customary for lovers only to imprint kisses upon the eyes of their mistresses. As the ladies' eyes, under those circumstances, had but little to do except remain quiet and be kissed, is it any wonder their lovely owners were said to be idle-eyes-ed?

A man can always tell exactly how tall he is by walking through a low door in the dark. Next morning he can measure the height of the door, and then measure from where it struck to the top of his head, add the two together, substract the swearing and multiply by what o'clock it was when he got home, and the result will be his net height.

There's Where They Make a Mistake.

Washington Post.

The advocates of an exclusively gold currency continue to sneer at "silver lunatics" and "silver idiots," and are doing their level best to bring the new dollar into general contempt. If this measure is a thing, it is that two thirds of Congress, and the same proportion of the people are insane or idiotic. It may be very distressing to the remaining third to be governed by such a majority, but they will have to submit to it, or get up a successful rebellion against overwhelming odds. If there are injudicious features in the silver act, there is a way to remedy defects; but such arguments as "lunatic" and "idiot" are not likely to convince men of their mistakes. This sort of argument was tested during the pendency of the silver bill. The result was a crushing defeat to the logicians who relied on insult and abuse.

A High-Born Babe.

There is one child that has started pretty high in the world. As the captive balloon in Paris was mounting to the clouds two weeks ago a young lady in the car was taken ill. A doctor from Tarbes, who happened to be in the car, saw her safely delivered of a boy before the balloon reached the ground, when a cab took the mother and and child to a hotel. The husband, son of one of one of the leading Manchester manufacturers, presented the doctor with one hundred dollars for his services.

No reason for the assault is known. The man made his escape.

Tombstones at Cost.

Parties wishing tombstones of any description will find it their interest to to call and examine Mr. John Cayton's large and varied selection. He will sell at cost for the next thirty days. Now is the time to secure bargains. Marble yard just below Harps carriage factory

A Model Establishment.

One of the sights of Wilmington street is the great store of W. H. Dodd, which contains within its walls an infinite variety of articles needed for family use. The quality of the goods on sale, as well as their cheapness, both prove satisfactory to all purchasers. *

Call at Watson's.

Opposite the Market. Fresh arrival of Early Rose Potatoes, onions, red King apples, oyster crackers, lemon biscuits, soda crackers, bulk meat, strips, small sugar-cured hams, pickles by the measure and bottled, chow-chow, Lee & Perrins' worcestershire sauce, fancy cakes and biscuits by the pound, liquors by the bottle and the best 5 cent cigar in the city. Also all kinds of fancy and laundry soap. *

A Branch House.

Having a more extensive stock of Furniture than our facilities would accommodate, we have found it necessary to enlarge our borders. We have opened a new store on Martin street, in the stand formerly occupied by W. A. Myatt, and will (in connection with our Fayetteville street store), carry a full line of furniture of every description. W. H. Morris & Co. *

One of the largest and best selected stocks of Groceries, Dry Goods, Ready-made Clothing, Boots and Shoes in the city will be found at W. E. Dupree's, Raleigh, N. C. Go and see him and you will be surprised to see how cheap he does sell goods. Don't forget the place for it is to your interest to give him a trial before buying elsewhere. *

Eternal Fitness.

Of all the men who by good nature and good fits have won themselves a far and wide reputation, that jolliest and best of Tailors, Chris. Weikel, is the leader. No higher compliment can be paid a well fitting suit than to say he made it. Those who would like to be Beau Brummels or D'Orsays, can be so by getting suits at Weikel's

The Smokers' Paradise.

The delights of this elysium have been sung by many of the devotes of the weed. But none are so competent to speak of its blisses as those who purchase their tobacco and cigars from the elegant little store of F. Gruendler, opposite the postoffice. *

Levy's Champion Shirts cannot be excelled.

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

All the groceries in town say their customers will not use any other Baking Powder but Jones' Unrivalled; they say they know it's pure. *

I see by the News that Gimlet and Corkscrew have been to see Brewster to buy hardware; having been there to buy other goods. I find tinware and crockery in abundance and all very cheap; in fact, so cheap that I nearly bought myself rich. But I will tell you what is a fact, Brewster's goods were so cheap and he had so many of them, that I spent all my money and couldn't go to Weikel's, but will go and see him soon and have a talk about Corkscrew and Gimlet. WASH BASIN. *

Important to Wheat Growers.

Parties wishing to sow wheat will find it to their interest to call on Messrs. Latta & Myatt. They have just received a shipment of standard Guano, which is very fine for wheat and will be sold very low. They have also on consignment a choice lot of Virginia apples. Call at once if in need of their goods. *

The National Hotel.

By some means unknown, a report has been given circulation that this fine house would speedily be closed. Never was there a rumor more utterly unfounded. The hotel will continue to be, as it has been, first class in its accommodations and living. The traveling public are asked to test the truth of this, and will always receive a ready welcome. *

ELECTION—TUESDAY, NOVEMBER 5TH.

Vote for Joe Davis.

Work for Jo Davis.

Wiley Jones! Well named!

The election is next Tuesday.

The North Carolina Methodist Conference will meet in Charlotte November 27th.

No candidate is elected till the vote is counted out. Over-confidence on our part will defeat Captain Davis. *Bring out the full Democratic vote.*

Do you want to see Wiley Jones, of Kirk Courtmartial memory, elected? If not see that every Democratic friend of yours goes to the polls next Tuesday.

Do you want Jo Turner, the candidate endorsed by Dick Badger, Ike Young and L. N. B. Battle elected? If not go to the polls and work for Jo Davis.

Ladies, as true daughters of Carolina and the South, your interest in the election on Tuesday is co-extensive with that of your fathers, husbands, and brothers. See that they do not neglect their duties as citizens and Democratic voters on that day! Give them no peace, and no dinner, until they report their ballot safely deposited for the right man, in the right place.

Gov. Colquitt, of Georgia, is in demand among the negroes of the State as a public speaker. The colored people of Georgia have thriven wonderfully under Democratic rule, and give evidence of their appreciation of it by frequent demands upon the chief representative of the party. He is received with ardent demonstrations of welcome, only equalled by those that greet Hampton in South Carolina.

AN effort has been made in Washington to organize a revolt against the Democratic party throughout the South, and, in some States, with partial success. The great aim and object of the Republican party in this canvass is to vindicate the decision of the Electorial Commission and Hayes' fraudulent title. The National party was organized to decoy into its ranks disaffected or deluded Democrats and Conservatives with the object of allying them with the Radicals.

When Billy Smith blew his horn in favor of the "campaign committee" many persons believed it to be a *sham*—plain trick to defeat Turner. But recent developements indicate that the Wiley William had in view the defeating of both Davis and Turner, by suddenly evoluting Wiley Jones as the standard bearer of the "trooly loil." Unluckily for these "well-laid schemes," the day when Smith's "horn," and Jones' "Drum-Head," could be effective in carrying elections has passed, and done, to repose forever, amid the "arkibes of grabbity."

The moments slip by and precious is each one of them, but are our friends awake and apace with the times. On Tuesday next the voters have a duty to perform upon which everything depends. If they desire good government they must do their duty to obtain it. If they desire the perpetuity of Democratic institutions; the preservation of their liberties; the safety of local self government; salutary, wise, just, honest, necessary reform in the civil service and financial policy of the Government, and an economical administration of public affairs, they will vote for Capt. Joseph J. Davis, the Democratic candidate for Congress, tried, true and trusted.

The Hillsboro Recorder, in an editorial upon Joe Turner and his fate, says there is no need to lend any additional weight to the impetus that is already carrying him fast down the hill of politics, for by his unrestrained temper and violence of language, by his open defiance of all the principles which he once avowed and advocated as the essential elements of Democratic character, he is doing more to hasten his own downfall than the combined efforts of his most earnest opponents. And we are glad that it is so; we are glad that he should become the exponent of his own character. He develops by his own words and his own actions, the exact characteristics ascribed to him by those who had learned to know him better than the general public.

It was a bold stroke when Messrs. Young, Hargrove, Badger and company, publicly excused themselves to their colored colleagues in the "Court House convention," for their somewhat arbitrary selection of Josiah Turner as the Radical "bell-wether" (no allusion to cow-bells in this) by declaring their designs to use him to "*pulverize the damnable democracy*," just as Sampson, of whom we read in the Scriptures, used a similar instrument to "pulverize" the damnable Philistines. But the brass which could avow such an intention in the very "face" of the selected "instrument,"—was as nothing compared with the brazen audacity with which the "jaw-bone" has been soliciting the favor of the intended victims of the "pulverizing" process. Shades of the old Sentinel office! what think ye of it!

NEW England civilization has for years affected a holy horror of what they termed "Southern bulldozing," and regretted the lack of civilization among a people, who, they claimed, used undue influence in repressing the colored vote. But now the people around the "Hub"-that is "Bosting,"-have started the movement with a vigor to the South unknown. The Butler campaign is in many respects a bitter one, and the contest is a close one, developing all the power of the contestants. The laboring element is to a great extent in factories, and is, of course, a power in the State. The leading paper of Boston mildly insinuates that the mill-owners of that State have an effective method by which they could induce their employees to believe that Butler should not be governor. The hint is a very suggestive one, and we have no doubt it will prove to be very effective, but it is a queer proposition to come from loyal Boston. A few years ago, when the people of the South, their very existence depending upon the movement they had on foot to bring about a return of good government to the States, undertook to instruct their colored employees in the way they should vote, a great howl went up from the loyal legions. It was claimed that we were endeavoring to deprive the negro of the right to vote and to obstruct the various privileges conferred upon him by Congress.

Mere Bluster.

A communication in yesterday's Raleigh Observer indicates that Judge Merrimon's friends are willing to abandon the "cigar box" election. This is as it should be. The effect of holding such an election would be to jeopardize seriously the election of Captain Davis by causing dissensions on the day of election among the Democrats of an important county, and by keeping many Democrats away from the polls who would dislike to take sides in a family row. There the article might have stopped. But it goes on further to say:

"It is generally understood that "among the Democrats of Wake Merrimon would beat Vance *four to one*: hence all this furor against the vote.

"Judge Merrimon's friends also confidently believe that he would beat "Gov. Vance among the Democrats of "the State nearly two to one. * * * "If Governor Vance's friends are afraid "of the showing they will make in "Wake county, let it be understood "that Judge Merrimon's friends are "not."

This was surely unnecessary and to say the least it is simply bluster. Gov. Vance's friends have no cause to fear for the showing he will make in Wake county or elsewhere.

The motive which has impelled the News so strongly to advocate the suppression of this side-issue is a knowledge of the great danger that would accrue to Captain Davis, caused especially by the fact that the champions of Judge Merrimon in canvassing for him would be forced to use the identical arguments that Turner is using to secure Democratic votes.

It is easy enough for Judge Merrimon's friends to say what he *would* do in a popular election. A better test is what he *has* done.

In 1872, when Judge Merrimon was at the heighth of his popularity, *before it was dimmed by his unfortunate bolt in the Senatorial contest*, he was a candidate for Governor and received 96,234 votes. In 1876 Gov. Vance was a candidate for the same high position and received 123,265 votes, an increase of more than 26,000 votes. That this increased vote was not due solely to an increase in our population is evidenced by the per centage of increase and conclusively by the fact that Gov. Vance beat his opponent 13,000 votes, while Judge Merrimon was beaten by about 2,000. In Wake county Judge Merrimon received 3,269 and Gov. Vance received 4,192, an increase of over 900 Democratic votes, or 30 per cent. In Buncombe, the native county of both gentlemen, Merrimon received 1,538 and Vance 1,965, an increase of 25 per cent on the Democratic vote.

It is useless to discuss this question further. The figures show what the public estimate of both gentlemen *has* been. As to what it *is*, we may safely assert that the Democratic members elect to the Legislature will fairly represent the opinions and wishes of their constituents. Judge Merrimon's friends, instead of making wild assertions about his being the choice of the Democracy of the State by a vote of 2 to 1, should immediately announce that they intend to submit Judge Merrimon's claims to the party caucus and abide the will of the party as expressed by a majority of the Democratic members elect to the Legislature.

Judge Merrimon's friends might well have taken credit for a willingness not to jeopardize the election of the Democratic candidate for Congress in this District and avoided the necessity of the comparison we have made.

The position of the NEWS is before the public and by their approbation or disapprobation we are willing to stand or fall. The contest between Gov. Vance and Judge Merrimon is really one between party unity and party disorganization. It is apparent that Gov. Vance is the choice of the Democratic party. It is clear that Judge Merrimon's friends will not pledge him to stand by the will of the party. Therefore we regard any effort made in Judge Merrimon's behalf and any support rendered him as so much done towards perpetuating and *endorsing* the bolt of 1872. If this aid shall be sufficient to cause a repetition of that disaster, the Democratic party might as well disband. If treason can be rewarded in high places, it can not be made odious in obscure ones.

We regard Gov. Vance, by his defeat in 1872, by his party and public services since, and by the almost unanimous will of the party as especially designated to preserve the integrity of Democracy in North Carolina and to fill the seat out of which he has been kept for six years by the votes of Radicals and bolters.

Should the Democratic caucus select some other worthy son of North Carolina (and she has many) for that high position, he will have the hearty support of the NEWS. Party discipline and unity will have been preserved and vindicated. Upon them our party success depends, and upon the continued success of the Democratic party depends the welfare of North Carolina.

We believe in principles not men. The success of principles as embodied in the Democratic platform and organization is superior to the promotion of any individual however worthy. Those who advocate the election to the highest position in the gift of the state of a man who will not agree to abide the choice of the party prefer the promotion of an individual and the gratification of his personal ambition to the success of our glorious principles.

VEGETINE.

I will try Vegetine. He did AND WAS CURED.

DELAWARE, O., Feb. 16, 1877.

MR. H. R. R. STEVENS:—

Dear Sir,—I wish to give you this testimony, that you may know, and let others know, what Vegetine has done for me. About two years ago a small sore came on my leg; it soon became a large Ulcer, so troublesome that I consulted the doctor, but I got no relief, growing worse from day to day. I suffered terribly: I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted a doctor at Columbus. I followed his advice it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier," for cleansing the blood from all impurities, curing Humor Ulcers, &c. I said to my family I will try some of the Vegetine. Before I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well nights. I continued taking the Vegetine. I took thirteen bottles. My health is good The Ulcer is gone and I am able to attend business. I paid about four hundred dollars for medicine and doctors before I bought the Vegetine. I have recommended Vegetine to others with good success. I always keep a bottle of it in the house now. It is a most excellent medicine

Very respectfully yours,
F. ANTHONI

Mr. Anthoni is one of the pioneers of Delaware, O. He settled here in 1834. He is a wealthy gentleman, of the firm of F. Anthoni & Sons. Mr. Anthoni is extensively known, especially among the Germans. He is well known in Cincinnati. He is respected by all.

IMPURE BLOOD—In morbid conditions of the blood are many diseases; such as saltrheum, ring-worm, boils, carbuncles, sores, ulcers and pimples. In this condition of the blood try the Vegetine, and cure those affections. As a blood purifier it has no equal. Its effects are wonderful.

CURED HER,

WORCHESTER, MASS., June 11.

DR. STEVENS:

Dear Sir,—I feel it my duty to say one word in regard to the great benefit I have received from the use of one of the greatest wonders of the world: it is your Vegetine. I have been one of the greatest sufferers for the last eight years that ever could be living. I do sincerely thank my God and your Vegetine for the relief I have got The Rheumatism has pained me to such an extent, that my feet broke out in sores. For the last three years I have not been able to walk; now I can walk and sleep, and do my work as well as ever I did, and I must say I owe it all to your blood purifier, Vegetine.

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,
C. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complexion shallow, and now I am WELL.

Respectfully your friend,
MRS. A. L. BROWN

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,
WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases. I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 2, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine As a Tonic and Alterative, I do not think it has any superior I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.

CAPTURED.

A Game of Cards---A Stab and its Work---The Murderer in Custody.

On Sunday last Douglas Baskerville and Jim Green, colored, both under the influence of mean whiskey, were playing a game of cards at Hamlet, when an altercation arose, which speedily terminated in the stabbing of Douglas Baskerville, one of the parties. The stab was inflicted by a pocket knife and was just over the breast bone. Immediately after the commission of the deed the murderer fled and up to Tuesday eluded all search. About noon of that day he was captured in South Carolina and at once brought to Hamlet, whence he was yesterday taken to Rockingham jail.

Green is represented to be a desperate negro. About three months ago he attempted to kill his wife by shooting her. An effort was made to arrest him, when he declared if the officer made an advance upon him he would fill his body full of lead. The officer summoned a posse of ten or fifteen men to arrest him, when he fled to the swamp and warned his pursuers that if they followed him he would drop at least five of them. He was finally captured and gave bond for his appearance at court. For the last three months he has been in that neighborhood and over the border picking cotton. He has repeatedly threatened the lives of citizens.

Personals.

Chief Justice Smith has returned from a lengthy visit to New York, and is looking well. While absent he was quite ill, and received careful medical treatment.

Dr. J. W. Hawkins is in the city, the guest of Col. A. B. Andrews.

Mr. J. W. Ramsey, one of the cleverest salesman that comes to this city, is registered at the Yarborough. Merchants will do well to reserve their orders for him.

The Charlotte Fair.

The people of Charlotte and all the surrounding country are energetically pushing the work of preparation for their fair next month. The outlook is hopeful for a splendid exhibition and large attendance. South Carolina will be well represented. Hon. J. M. Leach, of Lexington, and Prof. W. J. Martin, of Davidson College, will be invited to deliver addresses during the fair in addition to speakers already invited. The crowd in Charlotte will be the largest that has assembled there since the centennial celebration of 1875.

Runaway.

Yesterday afternoon Hargett street was made lively by a runaway of the dray horse of D. T. Johnson. The drayman was loading the dray with some furniture, and put some bed slabs in the body of the cart, when the noise made by the planks frightened the horse. Wheeling the dray around rather suddenly, the slabs were deposited in the street. The hind wheels were left in front of the Raleigh National Bank, the body of the cart between Fayetteville and Wilmington streets, and the front wheels about one hundred yards further down Hargett. The horse halted at a negro barber shop just below F. B. Hill's grocery. Not much damage was done the horse.

A GOLD MEDAL

has been awarded at the Paris Exhibition of 1878 to

CLARK'S

O. N. T.

Best SIX-CORD SPOOL COTTON. It is celebrated for being STRONG, ELASTIC, and of UNIFORM STRENGTH. It has been awarded MEDALS at the great Expositions, from the first at Paris, in 1855, to the Centennial at Philadelphia in 1876. In this country CLARK'S O. N. T. SPOOL COTTON is widely known in all sections for its Superior Excellence in Machine and Hand Sewing. Their Mills at Newark, N. J., and Paisley, Scotland, are the largest and most complete in the world. The entire process of manufacture is conducted under the most complete and careful supervision, and they claim for their American production at least an equal merit to that produced in Paisley Mills. As

NO GRAND PRIZES were awarded at Paris for SPOOL Cotton,

they are glad to announce to the American Public that they have been awarded a GOLD MEDAL, being the highest award given for Six-Cord Spool Cotton

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
